ABOUT ME

Software Engineer with expertise in Node.js, TypeScript, and React. Experienced in developing scalable SaaS applications, working with SQL & NoSQL databases, and integrating third-party APIs (Stripe, RevenueCat, Keycloak, Supabase). Strong background in backend optimization, CI/CD, and cloud solutions (AWS S3, Docker, Kubernetes).

LANGUAGES

Ukrainian - Native
English - Upper Intermediate

EDUCATION

Lviv Ivan Franko National University of Lviv. Bachelor`s degree

Faculty of Applied Mathematics and Informatics.
Specialty – 113 Applied Mathematics.
09.2020-06.2024

Lviv Ivan Franko National University of Lviv. Master`s degree

Faculty of Applied Mathematics and Informatics.
Specialty – 113 Applied Mathematics.
09.2024-...

PROJECTS

Node.js, Typescript

- [Rest API\(express\)](#)
- [Typescript](#)
- [Nest.js/TypeORM/JWT](#)
- [Nest.js/PrismaORD/JWT](#)

WORK EXPERIENCE

Incode group

- Developed a SaaS application using NestJS and React.
- Integrated third-party APIs, including Stripe, RevenueCat, Keycloak, Supabase, QuickChart.
- Implemented authentication and authorization using JWT and OAuth.
- Managed SQL & NoSQL databases with a focus on optimization and scaling.
- Integrated AWS S3 for storing and processing binary data.
- Refactored existing codebase to remove duplications and improve maintainability, enabling easy expansion for new integrations.
- Designed a flexible database schema to support multiple content sources (Google Docs, Markdown, GitHub) and destinations (WordPress, Apple News, Webflow).
- Worked on GraphQL API, fixing resolver issues and ensuring proper schema generation.
- Developed background tasks for video processing, including extracting frames, generating thumbnails, and uploading them to S3.
- Optimized API response times and reduced database query complexity.
- Set up and maintained CI/CD pipelines using GitHub Actions.

Stack:

Node.js, JavaScript, TypeScript, React, NestJS, MongoDB, PostgreSQL, MySQL, TypeORM, Mongoose
08.2023-...

HARD SKILLS

-  Programming & Frameworks: Node.js, TypeScript, JavaScript, NestJS, Express, React, Next.js, Redux, TailwindCSS, Material UI
-  Databases: PostgreSQL, MongoDB, MySQL, TypeORM, Prisma, Mongoose
-  APIs & Tools: REST, GraphQL, Swagger, Postman, OAuth, Auth0
-  Cloud & DevOps: AWS (S3, EC2, Lambda), Docker, Kubernetes, CI/CD (GitHub Actions)
-  Other: Technical Documentation, Agile (SCRUM, Kanban), Jira, Git

SOFT SKILLS

- Creative thinking
- Organization
- Team work
- Problem-Solving
- Perseverance
